

FIRST INTERNATIONAL QUANTUM COMMUNICATION CONCLAVE

Organized by TEC, C-DOT and TSDSI

in technical collaboration with

IEEE Communications Society
Delhi Chapter

📍 Hall No. 5, Vigyan Bhawan, New Delhi

📅 27-28 March 2023

Telecommunication Engineering Center (TEC) together with the Telecommunications Standards Development Society, India (TSDSI), Centre for Development Of Telematics (C-DOT) and Institute of Electrical and Electronics Engineers (IEEE) Communications Society Delhi chapter are organising the First International Quantum Communication Conclave, bringing together the international experts in the domain, practitioners, start-ups, researchers and the scientific community. The objective is to exchange the state-of-the-art technologies, discuss implementation challenges and explore collaboration opportunities and networking. The Conclave highlights Quantum Key Distribution, Quantum Random Number Generator, Post Quantum Cryptography, Quantum Networks, Sensors, Advanced detectors, Quantum memory, Testbeds, Quantum communication Standards, Use cases, Implementation issues etc. The audience include Research community, Telecom Service providers, Start-up companies, Industries working on Quantum communication, Standard development organizations, Regulators & Policy makers, Defense, Fintech companies, Banks etc.

Sh. Ashwini Vaishnaw

Hon'ble Minister of
Communications, Railways and IT

Sh. Devusinh Chauhan

Hon'ble Minister of
State for Communications

Prof. Ajay Kumar Sood
PSA to Govt. of India

Sh. K. Rajaraman
Secretary, DoT

Dr. S. Chandrasekhar
Secretary, DST

Dr. Samir V Kamat
Chairman, DRDO

Sh. Uma Shankar Pandey
Member(S), DoT

Sh. R.R. Mittar
Sr. DDG and Head, TEC

Trends in Quantum Technology

Dr. Rajkumar Upadhyay
CEO, C-DOT

Prof. Mustafijur Rahman
IIT Delhi

Prof. Bhaskaran Muralidharan
IIT Bombay

Prof. Umakant D Rapol
Project Director, QTF, IISER
Pune

Building a Quantum Network

Dr. Samir V Kamat
Chairman, DRDO

Sh. Nixon Patel
CEO, QuLabs

Sh. Nilesh M. Desai
Director, SAC, ISRO

Prof. Krishna Das
IIT Madras

Prof. Kausik Majumdar
IISc Bengaluru

Dr. Sadik Hafizovic,
CEO, Zurich
Instruments AG,
Zurich, Switzerland

Challenges and Prospects for Quantum Technology Development

Dr S. Chandrasekhar
Secretary, DST

**Sh. Nagendra
Nagaraja**
CEO, QpiAI

Sh. Timothy P. Spiller
Director,
Quantum Communications Hub,
UK

**Sh. Abdul
Kayum**
DDG, 6G Technologies, TEC

Sh. YGSC Kishore Babu
DDG, SRI Division, DoT

Dr. Bruno Huttner
Director, ID Quantique,
Geneva

Prof. Urbasi Sinha
Raman Research Institute,
Bengaluru

Dr. S.D. Sudarshan
Executive Director, C-DAC

Prof. Michele Mosca
Co-founder,
Institute for Quantum Computing,
University of Waterloo

**Prof. Prabhakar
Krishnan**
Scientist,
Amrita Center for
Cybersecurity

Dr. Pankaj Dalela
Director,
Member Board, C-DOT

DAY 2 - Tuesday, 28 March 2023

Quantum in Satellite Communication

Sh. Sanjeev Agrawal
Member(T),
DoT

Sh. Dilip Singh
Chief Product Officer,
QNu Labs

Prof. Urbasi Sinha
Raman Research
Institute

Prof. R.P Singh
Physical Research
Laboratory, Ahmedabad

Dr. Bruno Huttner
Director, ID Quantique,
Geneva

Security in the Quantum-Era

Smt. Pamela Kumar
DG, TSDSI

Sh. G. Narendra Nath
Joint Secretary, NSCS

Sh. Tommi Lampila
Director of
Business Development,
Xiphera, Finland

Sh. Atul Kumar Gupta
Group Leader, C-DOT

Sh. Animesh Aryan
CEO, Taqbit Labs

Sh. Prashant Chugh
Group Leader, C-DOT

Sh. Subhra Kanti Das
Head, Research & Technology,
Thales

Standardization efforts on Quantum Technologies

Sh. R.R. Mittar
Sr. DDG and Head, TEC

**Matthew
Campagna**
Amazon Web Services
Cryptography, United States

Prof. Anil Prabhakar
IIT Madras

**Prof. C. M.
Chandrashekar**
IISc, Bengaluru

Dr. Dustin Moody
NIST

Quantum Communication: Industrial Perspective and Use Cases

Lt. General M.U. Nair
SO-IN-C, Indian Army

Prof. D. Janakiram
Director, IDRBT

Sh. Sunil Gupta
CEO, QNu Labs

Sh. Satish Jamadagni
Reliance Jio

Dr. Dong-Hi SIM
SK Telecom, South Korea

Sh. Pejman Panahi
Senior Director, ID Quantique,
Geneva

Smt. Shikha Srivastava
Director, Member Board,
C-DOT

Sh. Pradeep Kumar
CEO, Qbit Labs

Dr. Manjunath Iyer
Wipro Limited

Sh. Abdul Kayum
DDG, 6G Technologies,
TEC

ORGANIZING COMMITTEE

Abdul Kayum
TEC

**Venkata Rama
Raju Chelle**
TEC

Atul Kumar Gupta
C-DOT

Prashant Chugh
C-DOT

Sujit Kumar
TEC

Rakesh Goyal
TEC

Ziaur Rahman
TEC

Dr. Manjunath Iyer
TSDSI

Col. P.K. Jaswal
TSDSI

Telecommunication Engineering Centre is a technical arm of Department of Telecommunications and responsible for formulation of standards, specifications, test procedures, service specifications and technical regulations for communication sector. TEC seeks to promote and ensure standardization in the telecom sector to ensure development of world class telecom network and smooth interconnection of individual networks. TEC actively participates in the meetings of standards development organizations, viz., ITU, ETSI, APT, WRC, etc. and also interacts with other international forums, viz., 3GPP, ETSI, IETF, One M2M, etc.

Centre for Development of Telematics (C-DOT) is an autonomous Telecom R&D Centre of Department of Telecommunications, Govt of India. Established in 1984, C-DOT has contributed significantly in indigenous design, development and production of telecom technologies especially suited to Indian conditions. In its initial years, C-DOT triggered a telecom revolution in rural India that was responsible for all-round socio-economic development. Over the years, C-DOT has developed a large number of products of national and strategic importance in various Telecom areas such as Optical, Switching, Wireless, Security and Network Management. C-DOT is also contributing significantly in development of products in technologies such as M2M/IOT, 5G, AI and Quantum Security. In Quantum Security Vertical, C-DOT has developed Quantum Security products in the areas of Quantum Key Distribution (QKD) as well as Post-Quantum-Cryptography (PQC). C-DOT also has plans to increase its Quantum Communication Security products' portfolio in the upcoming years.

Telecommunications Standards Development Society, India (TSDSI, <https://tsdsi.in>) is an autonomous, membership-based, standards development organization (SDO) for Telecom/ICT products and services in India. We develop standards for access, back-haul, and infrastructure systems, solutions, and services that best meet India-specific Telecom/ICT needs, based on research and innovation in India. We work closely with global standards bodies to reflect Indian requirements into international telecom/ICT standards. TSDSI is carrying out a Study on Post-Quantum-Cryptography for 5G Networks [SI 78]. TSDSI has also initiated a Technology Roadmap Item Proposal (TRIP) Forum on Quantum Communications to identify opportunities for standardization.
